

ADVANCED CLINICAL COURSE RADIOSURGERY

Functional Indications

DAY 1

12:00 - 1:30 PM

Welcome lunch

Arrival at the hotel and welcome of participants

1:30 - 2:45 PM

Guest & host presentations (meeting room)

Guest & host present their radiotherapy department and strategy on how to implement safe and successful functional radiosurgery treatments.

This session is meant for each team to understand the hospitals environment and create open discussions.

3:00 - 5:30 PM

Physicists (linac)

Dedicated session for physicists and dosimetrists on specific quality assurance techniques used for safe functional treatments.

Physicians (planning room)

Dedicated session for radiation oncologists and neurosurgeons on dedicated contouring tools for functional treatments.

8:00 - 11:00 PM

Group dinner

DAY 2

- 9:00 - 10:30 AM** **Clinical cases (meeting room)**
Presentation of functional treated cases and their outcomes with discussions on contouring, prescriptions, and planning approaches.
- 10:30 AM - 12:00 PM** **Physicians (control room)** **Physicists (meeting room)**
Observing an intracranial/functional patient treatment. Sharing experience and recommendations about small fields measurements
- 12:00 - 1:30 PM** **Lunch**
- 1:30 - 3:30 PM** **Demo session (seminar room hotel)**
Session detailing the dedicated Elements workflow for functional treatments.
- 3:30 - 4:00 PM** **Wrap up and farewell**
Training acceptance, certificates and goodbye

DAY 3 (remote, 3 months later)

- 9:00 - 9:15 AM** **Introduction**
Welcome and intro
- 9:30 - 11:30 AM** **Clinical cases**
Follow-up discussion and feedback after the first functional treated cases.
- 11:45 - 12:00 AM** **Wrap up**
Training acceptance, certificates and goodbye
